The Scrivener:
What's in a Name?

"A professional penman, a copyist, a scribe . . . a Notary." Thus the *Oxford English Dictionary* describes a Scrivener, the craftsman charged with ensuring that the written affairs of others flow smoothly, seamlessly, and accurately. Where a Scrivener must record the files accurately, it's the Notary whose Seal is bond.

We chose *The Scrivener* as the name of our magazine to celebrate the Notary's role in drafting, communicating, authenticating, and getting the facts straight. We strive to publish articles about points of law and the Notary profession for the education and enjoyment of our members, our allied professionals in business, and the public.
