# Summer Potpourri

**T**he major theme of this issue is **Allied Professionals in BC: the Notary Foundation, the Law Foundation, and the Real Estate Foundation.**

Each year, these three foundations use the funds generated by their respective trust accounts to create significant benefits for the people of British Columbia.

Our delightfully candid Cover Story interview shows how the gentlemen at the helm of the foundations work together.

A significant part of their success is their strong spirit of commitment and cooperation. All team players, these three capable individuals clearly enjoy their work and achieve a high standard of excellence through their efforts. They thrive on the challenges their jobs present and they respect and appreciate the people with whom they work and interact every day. I am impressed by their dedication.

**They thrive on the challenges their jobs present...**

This issue of *The Scrivener* also offers a potpourri of interesting

topics—including ferrets, GST changes, the challenge of affordable housing in Vancouver, and our popular Recommended Summer Reading section. Rosario's Kuhrt's Rum Cake (page 41) comes highly recommended. "It is one of the best cakes I have ever eaten!" says Wayne Braid, our Executive Director.

The 13 new faces of the 2006 class of Notaries are featured on page 34. They have worked very hard to earn their place as fully qualified Notaries in communities around BC. Welcome to the family!

This is The Society's 80th year of incorporation. We are celebrating the event throughout 2006, with a special emphasis on the anniversary at the annual Fall Conference and AGM in September in Penticton.
